OBJECTIVE

To seek a challenging assignment and further my knowledge in computer sciences while gaining real work experience in my field of study

KEY SKILLS

- Worked on many Data Structures such as Array, Linked list, Tree, Queue
- Familiar with virtual machines and worked on VIM, and UNIX utilities, and C programming
- Familiar with Semantic web, RDFS, FOAF, OWL and SPARQL query
- Worked with MYSQL Workbench software, designed a database, and familiar with SQL programming
- Microsoft Office (Word, PowerPoint, Excel)
- Operating systems: Windows, OS X, Unix
- Troubleshooting of computer hardware and software issues
- Foreign Languages: English: fluent; Farsi: fluent; Balochi: fluent; Arabic: limited working proficiency; Hindi: intermediate

EDUCATION

Georgia State University, Atlanta, GA
Bachelor of Computer Sciences, GPA: 2.9

Expected Graduation Fall 2017

Hawaii Pacific University, Honolulu, HI
Bachelor of Computer Sciences, GPA: 3.3

Experiences

- Developing screensavers using Java Graphics Class
- Improved GUI for collecting, view and search user information.
- Interactive phone directory using Java.
- Interactive bank account using Java.
- Database using MYSQL Workbench

Projects

Database design

- ER/EER model in min and max notation, Contextual data flow diagram
- Normalized DB model, Implementation on database model
- Used Workbench and SQL

Data mining

- Analysis on obesity rate correlation at proximity to grocery stores based education level and family income
- Methods used are Apriori, KNN, dataset, Orange algorithm, and FP-tree, pattern recognition

Azizi Charity Institution

Jun 2007-Oct 2009

Assistant manager

Zahedan, Iran

- Captured member information for tracking and improving search using MS Office.
- Responsible for improving customer experience.

OTHER ACTIVITIES

- Attended Georgia International Leadership Conference 2016,2017. Intensive workshops for higher leadership skills at workplace and academic environment
- A member of HACKGSU at Georgia State University.
